

As an American citizen, I am astounded that the FCC is not taking a proactive stance in realizing their stewardship of my airwaves.

For Sinclair Broadcasting to force their stations to air an anti-Kerry "documentary" (it is not a documentary: most of the allegations have been long debunked: refer to [www.factcheck.org](http://www.factcheck.org) for a long list of demonstrable lies and fabrications) shortly before the election is a clear example of the arrogance and conceit of media consolidation.

Please take the appropriate and immediate action to forestall Sinclair Broadcasting from so blatantly removing a keystone from our already fragile democracy.

Thank you.
